

Industrial Hemp & Medicinal Cannabis

ChemCentre offers a suite of analytical testing solutions providing you with confidence that your cannabis product is compliant with state and federal regulations.

Expert testing services

ChemCentre offers testing of medicinal cannabis for compliance with Therapeutic Goods Order No. 93 (Standard for Medicinal Cannabis). Our testing services can be performed on raw material, intermediates and pharmaceutical formulations.

We also offer independent testing of industrial hemp to ensure compliance with state and federal regulations in relation to the permitted tetrahydrocannabinol (THC) content.

Additionally, our experts can consult with you to assist with queries regarding product development and formulation.

Our services include:

- Cannabinoid Profile
- Foreign Matter Examination
- Heavy Metals
- Macroscopic, Microscopic and Chromatographic Identification
- Moisture & Ash
- Mycotoxins (Aflatoxins and Ochratoxin A)
- Pesticides Screen
- Residual Solvent Screen
- Terpene Profile

Choose a trusted provider
